

I respectfully urge you to reject the National Association of Broadcasters petition 04-160 and request that you support XM Satellite Radio's continued ability to provide the programming that we enjoy. Satellite Radio, which we PAY for, provides us several services and has come in handy when we have travelled through large cities for weather and traffic. When you don't know the local stations it is nice to have XM to depend on. Ours is a military family and we tend to travel a bit more than most families and have come to rely on these channels.

We also enjoy not having to search for radio stations when we are on the road - and our signal rarely dies away. When we used to travel from Georgia to Florida we could never find radio stations that would last very long - whereas we can listen to our XM radio channel the entire time.

Not only that, but where else can you find the multitude of selections that XM provides - such as XM Kids, Radio Disney, Laugh USA (Comedy), not to mention all of the news and sports stations - Plus we can choose to listen to music by the decade or genre.

I respectfully urge you to not restrict the services that XM Satellite Radio is providing us. It is a service that we really enjoy and would sorely miss.
